

GOOD SAMARITAN

There are many emergency situations happening around us, that can be resolved by experts who are exactly at our vicinity and willing to help. Good Samaritan connect certified volunteers to those seeking help.

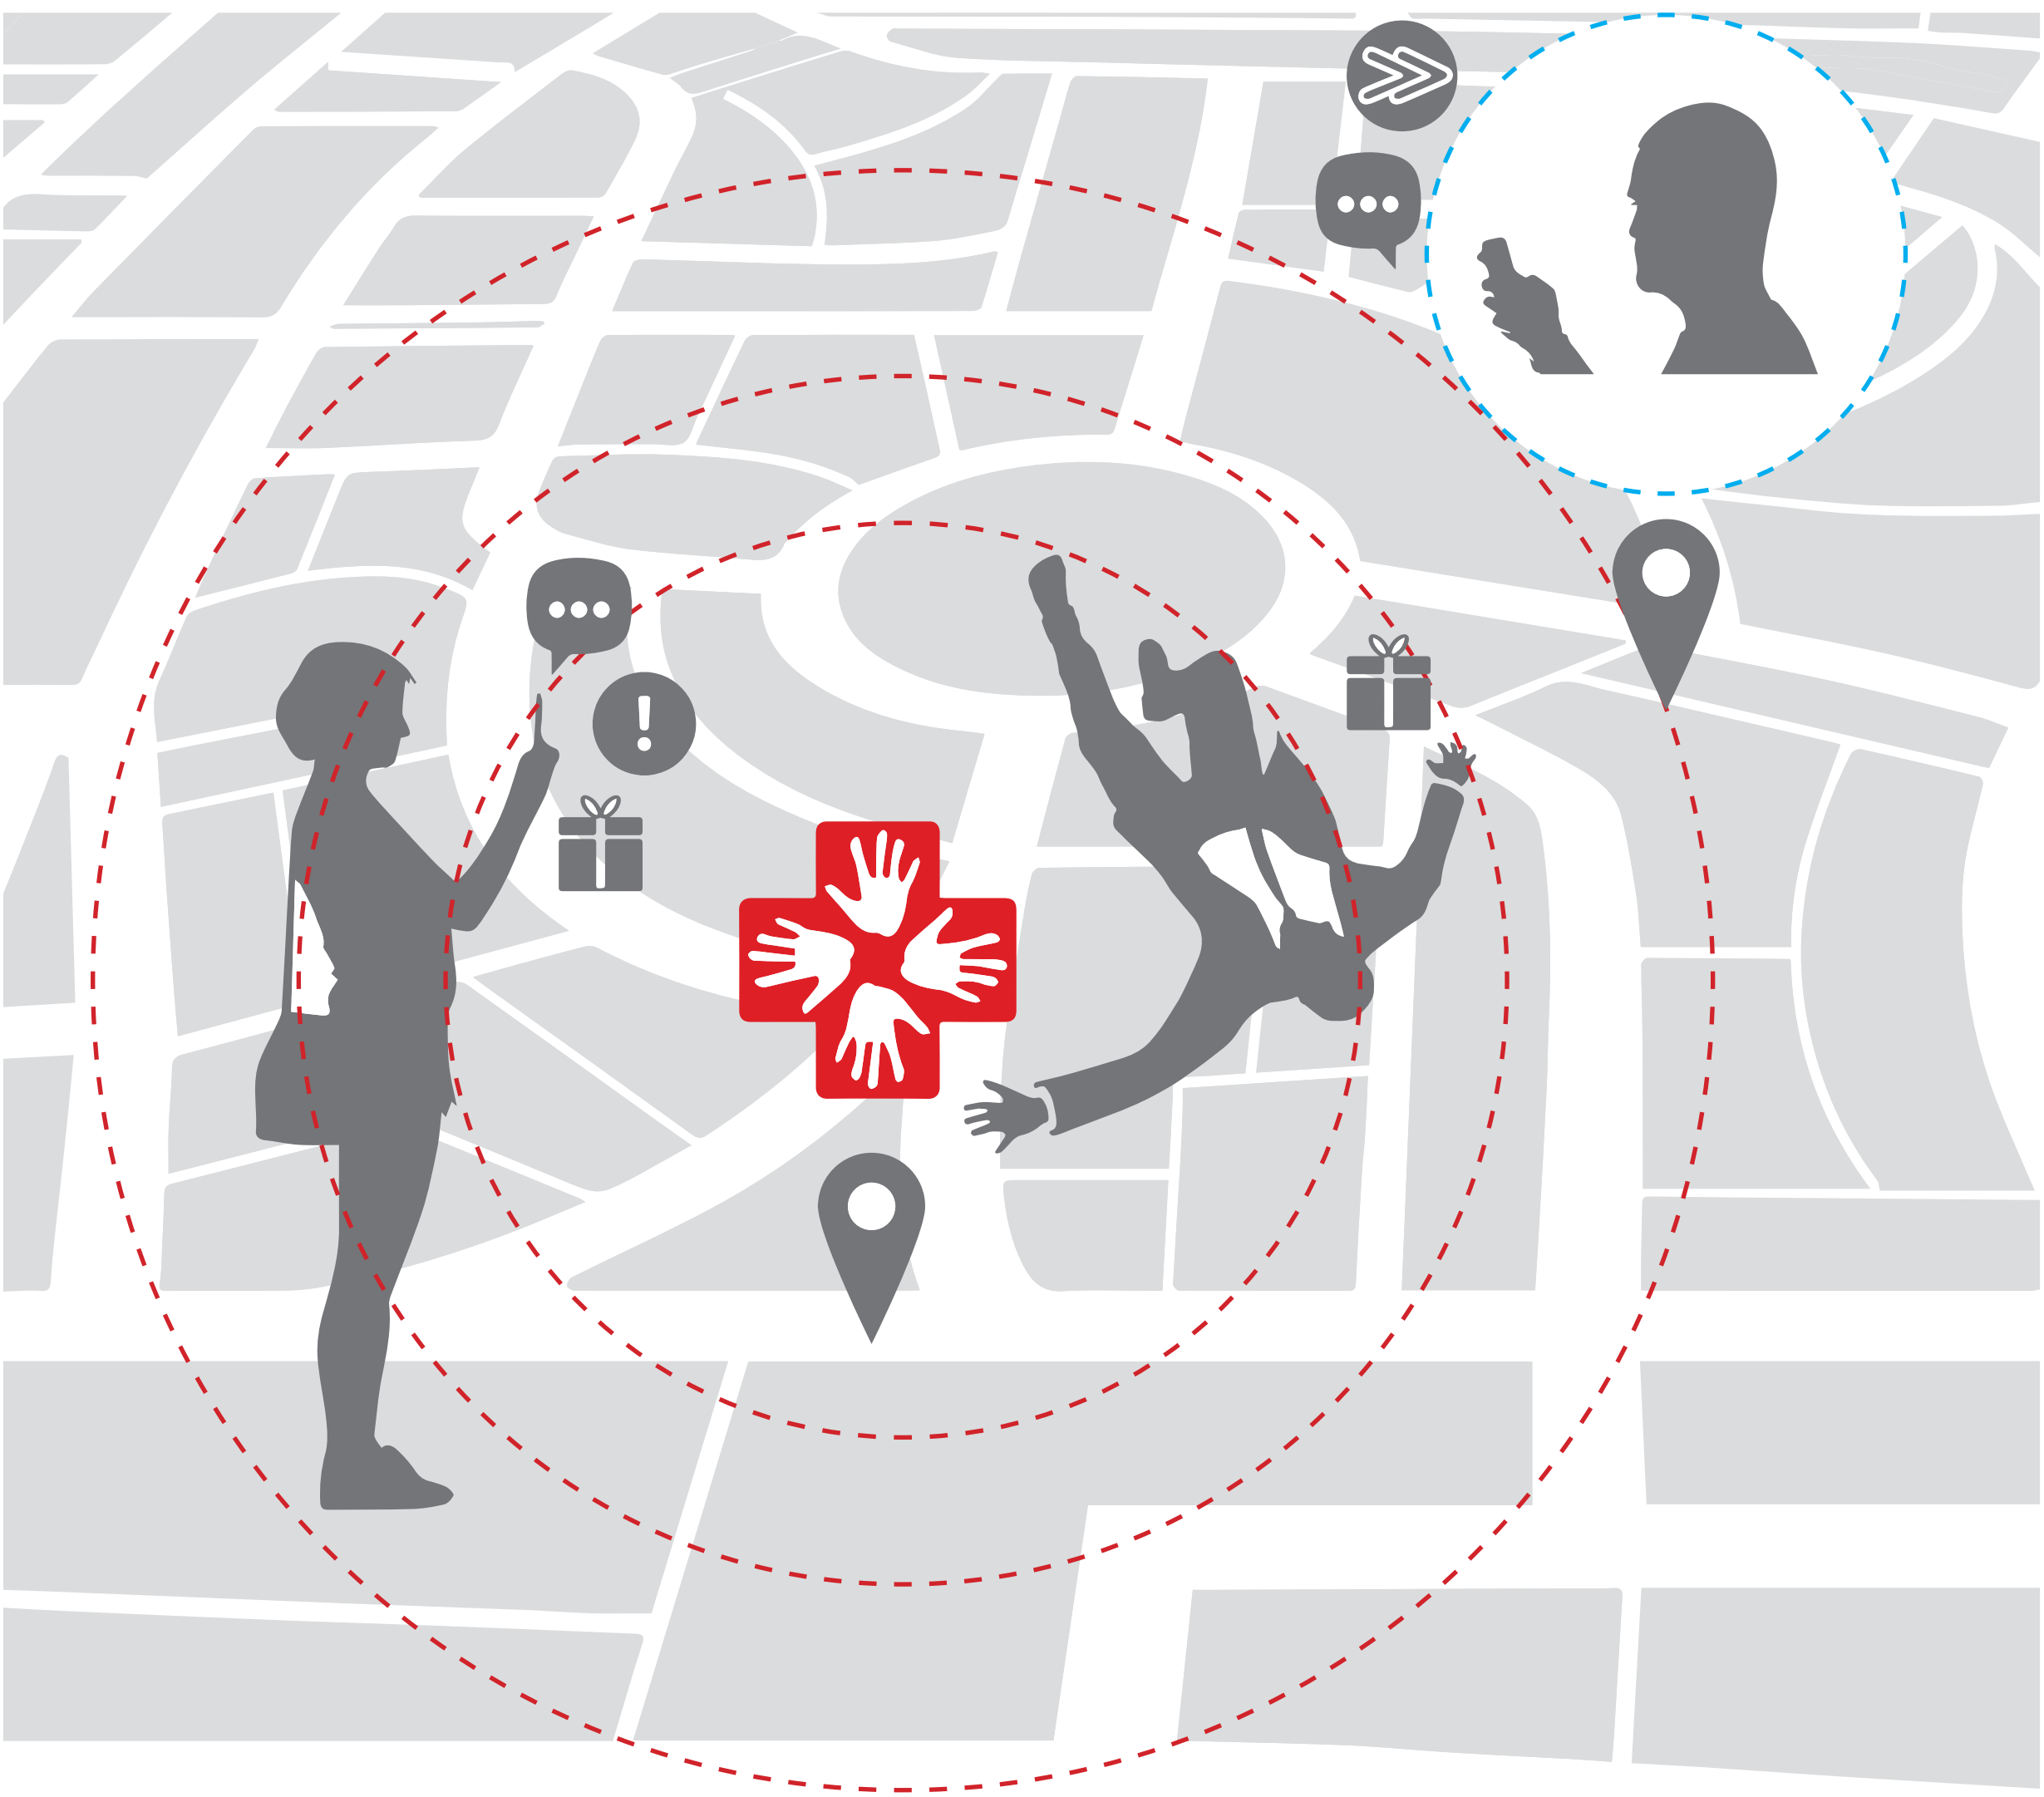

Good Samaritan is a smartphone application that aims to address inadequacies associated with current emergency response services. The App will make use of available resources near an emergency situation. Good Samaritan may facilitate saving human lives, reduce monetary and time budgets that is currently being spent for managing emergency situations, and enhance quality of life for population at large.
